

# CASIO

## Designed to Travel Light! YC-430

### Portable Presentation Stand

When opened the copy stand is about 13 inches wide x 14.5 inches high x 10.5 inches deep. The copy stand, in conjunction with the included proprietary digital camera, provide some exceptional presentation and data capture features. Configure it with your laptop or PC and you have an exceptionally powerful tool that is small, lightweight and mobile.

- 10 Mega Pixel Removable Digital Camera
- Fits in Your Briefcase (Approximately 6.6" x 1.7" x 10.5" Folded)
- Scanner
- 3-D Presenter
- Document Presenter
- Direct Connection to USB on Projector
- 3.50 lbs.

Use it as a scanner to capture newspaper and magazine articles as well as to copy from books and other printed material. Your document will square up automatically.

You are not limited to flat documents. Capture 3 dimensional objects such as product and samples.

The 10 Mega Pixel JPEGs can be saved, shown or distributed with your PC and printer.

Easily slide the camera from the copy stand and you have a stand alone 10 Mega Pixel Digital Camera with 3X optical zoom.

Use it like an overhead projector. Throw your document on the stage and watch as the firmware squares it up for you automatically, so you can concentrate on giving your presentation and not adjusting the document.
